

TravelBuddy AI

UI/UX Case Study

Jyoti Gupta
Figma Portfolio Project

DTU CSE | June 9 2026

Problem Statement

Travel planning requires using multiple apps for budgeting, itineraries, transportation, and packing.

Solution

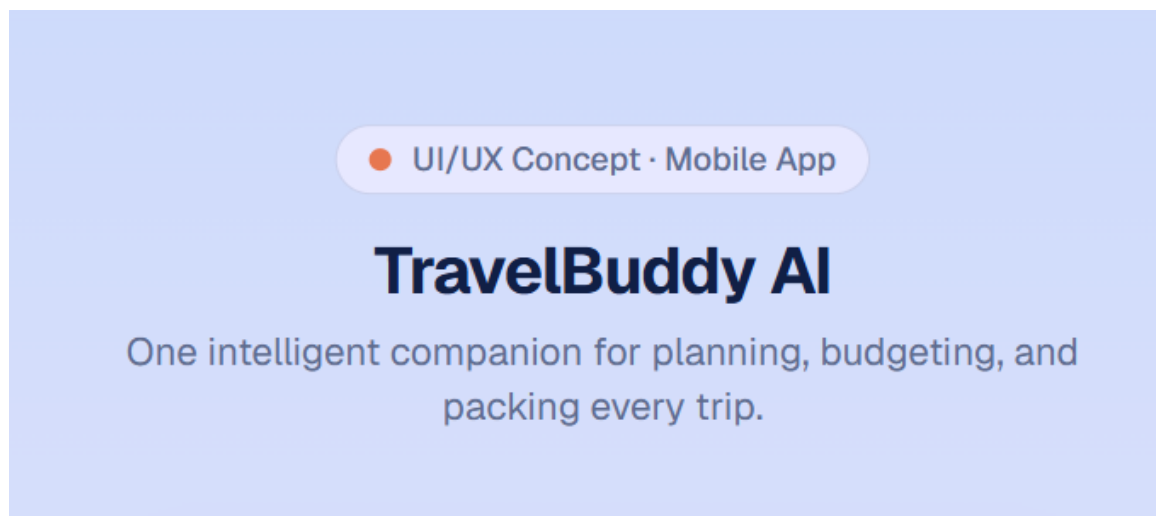

TravelBuddy AI combines trip planning, budgeting, itinerary generation, and packing assistance in one platform.

Target Users

- Students
- Solo Travelers
- Backpackers
- Young Professionals

User Pain Points

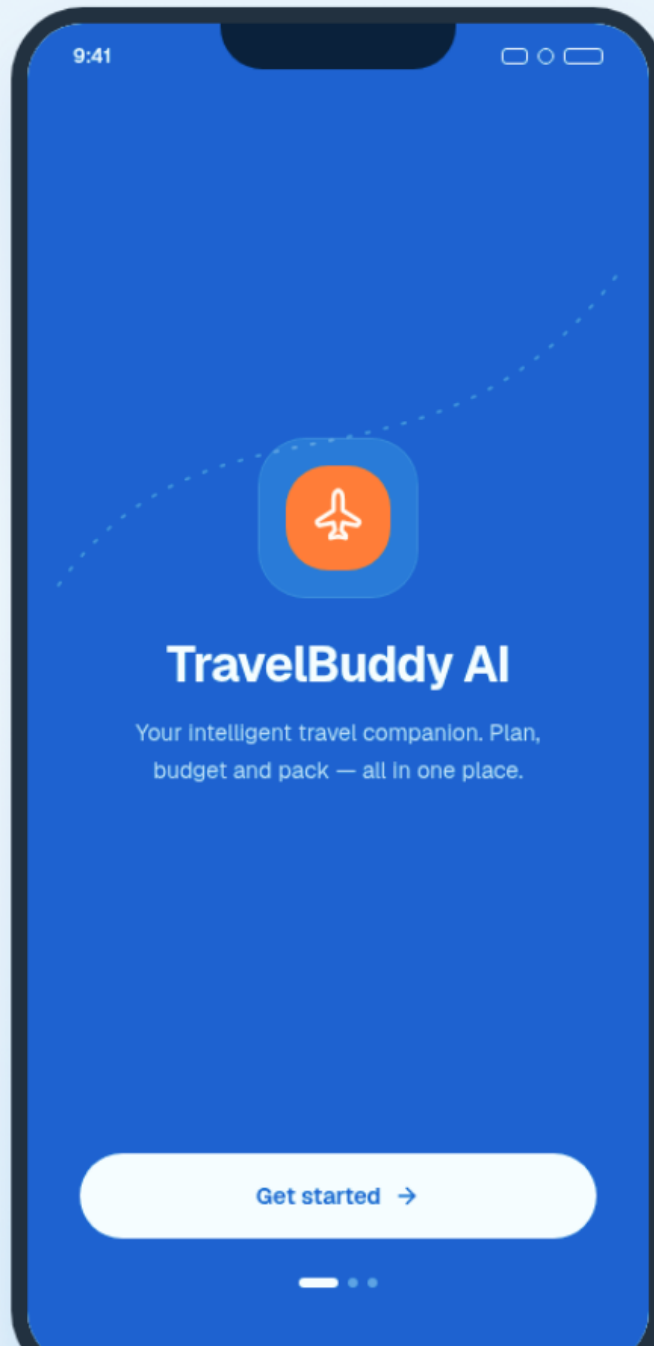

- Too many apps
- Difficult budgeting
- Forgetting essential items
- Time-consuming planning

● UI/UX Concept · Mobile App

TravelBuddy AI

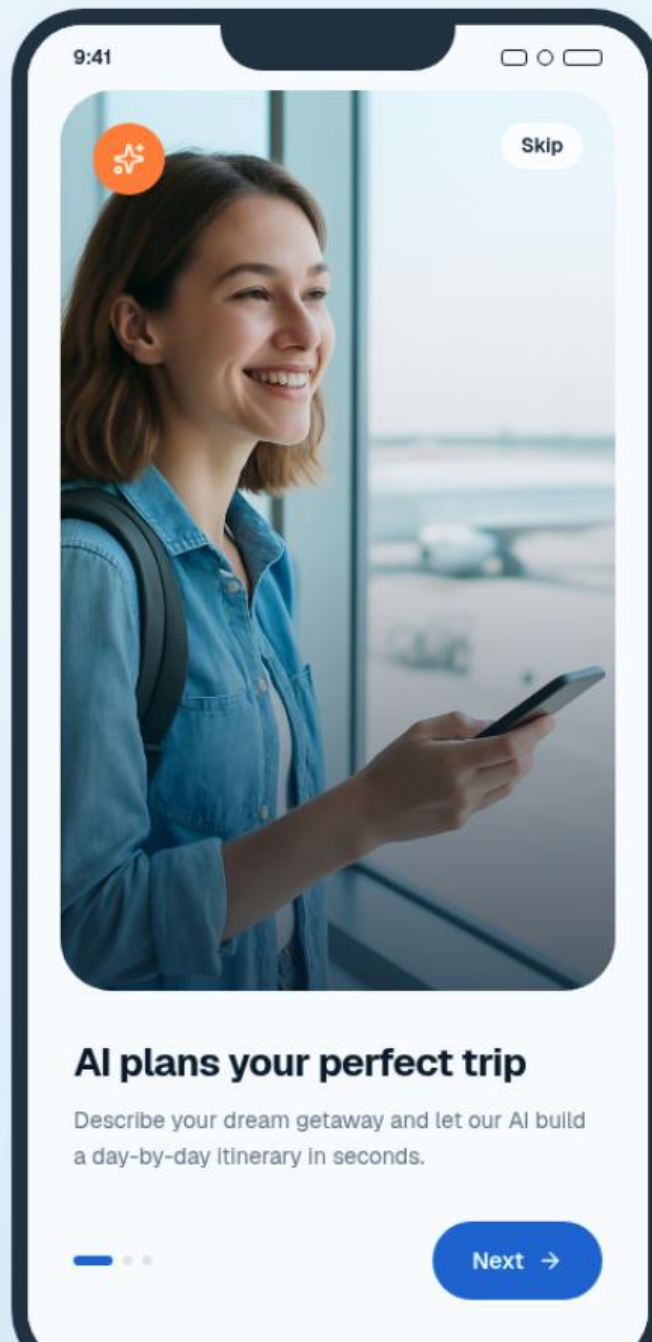

One intelligent companion for planning, budgeting, and packing every trip.
